

Aviation Liability Cover for Drones | What's New?

Not a lot actually. Vero Liability has been insuring liability risks for drones for a long time – none of our product offerings exclude drone risks.

- ▼ Check out our [Market Bulletin dated March 2015](#) which is still relevant
(NB the arrangement with Aviation Co-op no longer prevails following a restructure of that agency)
- ▼ Check out our [Public & Products Liability policy](#)
- ▼ Check out our [LegalEdge policy](#)

Our specialist aviation liability underwriter, [Ian Thompson](#) will be happy to hear from you should you have any questions.

LawSafe | What's Happening?

There has been a recent surge of interest in another unique VL offering – our LawSafe product has been picked up by quite a few brokers as an important (if small) element in client portfolios

LawSafe 24/7 will pay for legal representation for difficult problems arising from many aspects of home and work life, specifically: criminal and traffic prosecutions; neighbourhood disputes and disputes with contractors and local authorities.

LawSafe also features a 24/7 legal helpline for emergency situations.

Vero Liability continues to stay abreast of the market with its comprehensive product offering backed by its continually acclaimed, second-to-none claims service

Any Questions?

Your [VL Underwriter](#) will be pleased to offer any assistance you may require on drone coverage or LawSafe – feel free to call for a chat.
